11. Which have been the primary activities, problems and achievements of your organization as regards the rights of minorities and minority policy in the last two years?

Primary activities were of organizational nature, as we were encouraging opening of our sections in other cities in Serbia and we were stimulating larger influence of young in the work of our Association. We have established wider connections with other Arman organizations. As result we started with language courses

for young that don't speak language and regional projects with Arman organizations from other countries. Main problems in our work are absence of understanding of State for needs of small community as it is ours and absence of legislation which will take in consider small minorities with out of kin-state. As consequence of that we finance our work only from our own resources.
